Book Synopsis

A smart young Muslim Canadian woman navigates the complexities of career, love, and family in this lively homage to a Jane Austen classic. "While it is a truth universally acknowledged that a single Muslim man must be in want of a wife, there's an even greater truth: To his Indian mother, his own inclinations are of secondary importance." With that nod to Pride and Prejudice firmly in place, Jalaluddin lays the groundwork for a raucous story that mixes a zany cast of characters with a tightly wound plot.
